

Logistics Individual logistics concepts

Your benefits at a glance

Innovation

We are able to provide you with concepts that have been tailored and adapted to your requirements – whether for tasks purely related to storage or for requirements that are more complex, such as picking, packing, packaging, labelling, display construction and many other activities, including returns management, the organisation and handling of your e-commerce and the provision of call-centre operations. We always keep an eye on the optimisation of your business processes here.

The logistics region of central Germany

Our central location in Europe and our international connections constitute the best basis for the entire management of supply chains.

A variety of storage and logistics areas are also available at short notice to you at our facilities in Göttingen and Apolda where the capacity currently ranges at 35,000 m² on our 110,000 m² premises.

We're always happy to help with advice

Local distribution Regional distribution transport

Euro Cargo European overland transport

Air and Sea Air and sea freight

Highest delivery quality

All shipments received during the night are delivered to recipients in our distribution area on the day of receipt. Express deliveries with individual agreement of appointments and Saturday deliveries are carried out reliably.

We will, of course, collect your shipments when it suits you best. We accept deliveries around the clock.

Optimum equipment

 The right vehicle for any shipment: we use our own modern and environmentally-friendly vehicles that comply with the latest EU emissions standards. The vehicle fleet includes 12-tonne vehicles with lifting platforms, semi-trailers with tarpaulin and double-deck trailers as well as swap-body trucks. Vehicles are fitted with hazardous material equipment, modern telematics systems, driver-assistance and safety systems. Deliveries are made using the latest scanning technology and status details are transferred in real time.

Our dedicated staff will convince you

Krüger regular transport services

Our well-functioning regular transport services enable us to reliably and punctually reach destinations all over Europe. We are able to offer you a range of daily departures to our nationwide German and European partners. All in just 24 hours or 48 hours at most within Germany.

Krüger system transport services

Strong network partners within Europe, e.g. ONLINE Systemlogistik GmbH (www.oslnet.de) and E.L.V.I.S Teilladungssystem GmbH (www.elvis-partloads.com), guarantee the reliable distribution and procurement of your shipments. We are able to get to anywhere within the EU through professionally managed hubs in Hannover, Homberg, Schlitz and Nördlingen. In addition to the standardised processes, we are also able to offer additional express shipping and Saturday deliveries.

Krüger Service plus

- ▶ Europe-wide part and full load scheduling
- ▶ Drinks logistics
- ▶ Delivery free to the point of use
- ▶ Delivery tracking over the Internet
- ▶ WEB capture
